Technology is our passion

Total Care IT Services

EnvisionIT Solutions delivers Proactive maintenance services through our flat-rate Total Care IT Services. Designed to reduce your costs, increase your profits and mitigate your business risks, we partner with you as your Virtual CIO and IT Department, allowing you to focus on running your business, not your technology infrastructure.

Help Desk Services

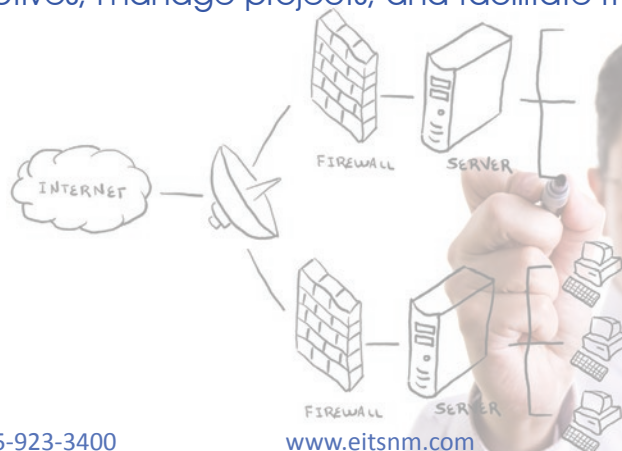

EnvisionIT Solutions help desk services are backed by industry leading technologies of Online Ticket Submission, internet-based Remote Support and experienced service technicians that resolve 90% of all help tickets remotely or an onsite technician will be scheduled.

Comprehensive IT Services

Virtual CIO Consulting

Our Virtual CIO services help business owners and executives develop and manage a business technology strategy. Our purpose is to provide technical expertise while helping set and manage technical business objectives, manage projects, and facilitate IT budgeting within your company.

Network Design / Implementation

EnvisionIT Solutions project management team relies on extensive network experience to design and implement a cost effective, client-specific network that will grow with the client. We have completed and participated in a large number of complex projects, always striving for perfection.

Our innovative and individual approach, always results in an impressive, effective and one-of-a-kind solution. You need a secure and reliable IT environment — we have it and we deliver it with superior quality and precision. Trust in our technical excellence and proven reputation, we will take your project from vision to reality.

Total Care IT Services

Disaster Recovery and Data Backup Solutions

Statistics show that on average, over 40% of businesses that do not have a Disaster Recovery Plan go out of business after a major loss like a fire, a break-in, a storm, or sabotage.

The first step is to create a Disaster Recovery Plan. We can help you get started right away. We will put together a comprehensive plan for your entire organization, considering key components crucial to your recovery, and establish a formal process to be followed to restore your business functionality when a disaster occurs.

Why Choose Us?

EnvisionIT Solutions brings the large corporate IT experience to all clients. Large corporations spend millions of dollars implementing time saving and production saving solutions that are all geared around information technology. Whether these solutions are hardware or software based, they can and should be, scaled to fit everyone's needs.

*Most businesses do not need a full-time IT staff.
What they need is a solution that will grow with
them and provide the return on investment needed to
stay on the cutting edge of information technology.*
