**BHITracker® Software**

**BHITracker® Software** was developed to provide our clients a consistent and transparent document management platform. This web-based software acts as a central location for all project-related documents and is customizable and scalable. The user-friendly interface can be accessed online via username and password, allowing documents to be seen at any time by all members of the project team.

**BHI Tracker® Software** is a full suite of modules that can ultimately span a project's full lifecycle. The current components of this system offer support for:
- **Projects In Progress**
- **Projects Out To Bid**
- **Projects Under Construction**

### IN-PROCESS PROJECTS

- BHITracker serves as a communication hub for:
  - Issues Tracking
  - Change Logs
  - Central Storage Location for Files
  - Team Contact Lists
  - Quality Control Tracking for each Deliverable

### BIDDING SUPPORT

- BHITracker facilitates documentation and efficient submittals in real time, featuring:
  - Password Only Access
  - Inquiry Coordination to submit questions to Owner/Engineer
  - Electronic Documentation Warehouse for Contract Documents, Plans, and Specifications
  - Automated Bidders List

### CONSTRUCTION

- BHITracker offers a centralized location for accessing and submitting:
  - Material Submittals and Shop Drawings
  - Requests for Information
  - Design Revisions
  - Daily Field Reports
  - Field and Materials Test Reports
  - Meeting Minutes
  - Change Orders
  - Pay Applications

Projects that have used BHITracker® software have shown proven advancements in communication and aided in document processing and record-keeping, saving our clients time and money.
