

# ABOUT US

Dumas Slade brings valuable insight to aviation projects. With over 40 years of airport experience in New Mexico, his work experience includes more than 200 projects involving project management, airport plans and facility assessment, design, construction management, construction inspection, and quality control.

Mark Huntzinger, PE, has more than 35 years of experience in aviation project planning, design, construction, and construction management, as well as in handling purchasing arrangements with consulting firms and with other federal, county, and municipal government agencies.

Albert M. Thomas, PE, is a managing principal and senior transportation engineer whose duties include contract administration, as well as management of engineering design on projects. His wide range of exposure to all facets of civil engineering makes him a unique and valued team leader, allowing him to understand different disciplinary perspectives on projects.

## WHO WE ARE:

Since 1959, BHI has provided exceptional engineering services to clients. Our professionals have proven experience in solving diverse airport design and construction issues. Our team acts as an extension of your staff adding an owner’s perspective to aviation projects. Our philosophy is to apply our decades of knowledge and experience to serve you in such a way that you will not need to worry about the airport operations. Our team is well-suited to provide you with the resources you need to successfully manage your airport. In short: we’ve got you covered.

# SERVICES WE PROVIDE

*We know airports.*

## IMPROVING CONNECTIVITY

Our aviation team has successfully completed over 250 airport development projects. As an extension of your staff, we can help you manage and protect your critical assets. Our team's work includes project management, airport plans and facility assessments, airport design, construction management, construction inspection, and funding coordination, as well as ground-up development of new airports.

## DESIGN & IMPROVEMENTS

Your airport is your portal to the world and the world's portal to you. We can help you protect and maintain your airport system when it's time to design new infrastructure or make improvements. Our design services include:

- Airport Infrastructure Design Improvements
- NAVAIDS
- Runway and Taxiway Improvements
- Terminal and Hangar Improvements
- Utilities and Energy Infrastructure
- Support Facilities and Equipment
- Airfield Lighting
- Wildlife Hazard Mitigation
- Construction Observation and Acceptance Testing

## FUNDING CONSTRUCTION

We invest the time to know what is required for FAA-funded projects, so you don't have to. Our experts can assist you define policies, strategies, and options for your airport program. Our team monitors deadlines and follows your internal processes for obtaining various types of approvals.

- DBE Coordination
- FAA, State, Local, and Grant Requirements
- Funding Management
- Construction Phase Support

## PLANNING & DEVELOPMENT

A well-planned airport can play a critical role in the economic health and well-being of your community and region. We understand the challenges, complexity and costs of sustaining an airport system. Better planning leads to innovative development strategies and fresh perspectives. We can help you with:

- Aviation Planning
- Site Selection Studies
- Property Acquisition
- Survey and Spatial Data
- Aerial Mapping
- Airport Master Plan and Action Plans
- Aviation Planning for Airfield Surfaces
- Airport and Electrical Layout Planning
- Part 107 Certified Remote (UAS) Pilots on Staff

## MAXIMIZING YOUR RESOURCES

Our decades of knowledge and relationships with state and federal aviation staff reinforce our understanding of their needs and expectations. This knowledge has given us the expertise needed to apply design standards, follow requirements, and also how to guide a project through the funding processes smoothly.

## EVERYTHING YOU NEED *under one roof*

Bohannon Huston, Inc. (BHI) provides the complete suite of planning, design, and construction phase services from under one roof. We work with our aviation clients to develop the vision for their projects by providing guidance and quality solutions from concept to construction. Our staff covers the entire project development lifecycle from data collection, project planning, funding assistance, design, to construction phase services. We have established relationships with trusted long-term partners to offer additional specialty services. From start to finish, BHI will get you there.
