BHITracker® **Software**

Collect. Design. Bid. Build.

BHITracker® Software was developed to provide our clients a consistent and transparent document management platform. This web-based software acts as a central location for all project-related documents and is customizable and scalable. The user-friendly interface can be accessed online via username and password, allowing documents to be seen at any time by all members of the project team.

BHITracker® Software is a full suite of modules that can ultimately span a project's full lifecycle. The current components of this system offer support for:

- Projects In Progress
- o Projects Out To Bid
- o Projects Under Construction

IN-PROGRESS PROJECTS

BHITracker serves as a communication hub for:

- Central Storage
 Location for Files
- Team Contact Lists
- Project Manager
 Quality Control
 Tracking for
 Deliverables

BIDDING SUPPORT
